Content domains and weights (state portion)

- Louisiana Civil Law System — 13-15 items
- Louisiana Law of Agency — 13-15 items
- Statutory Requirements Governing Activities of Licensees — 13-15 items
- Licensing Requirements — 7-9 items
- Duties, Overview, and Powers of the Real Estate Commission — 4-6 items

High-yield review areas

- Civil law, agency, and statutory duties together make up roughly half the state portion — start here, since these three domains dwarf the two smaller domains combined
- National portion: agency relationships, contracts, financing instruments, property valuation basics, and federal fair housing rules
- Commission powers and licensing requirements are smaller domains but still worth a focused pass since every item counts equally toward the 55-item total
- Run at least one full-length timed practice test under real conditions so you build a feel for the 90-minute state and 150-minute national pacing before test day

Top traps

- The 70 passing score applies to each portion independently — a strong national score does not offset a weak state score
- Pretest items look identical to scored items on both portions; you cannot identify or skip them, so answer every question as if it counts

- If you fail only one portion, you register for and pay only that portion's retest fee, not the full combo fee again — no need to retest the portion you already passed
- Your one-year authorization clock keeps running even between attempts — don't let it lapse before you retest
- Passing the exam and getting licensed are two separate steps with separate paperwork and fees — budget roughly \$90 more for the license application on top of your exam cost
- Confirm your prep materials reference the current national outline (effective April 1, 2025) and state outline (effective September 1, 2021) rather than an outdated version
