Series 50 Exam Snapshot

- 100 scored questions
- 180 minutes (3 hours) to complete
- 71% passing score
- \$265 exam fee

Quick-Reference Formula

Minimum correct answers needed to pass:

- $71\% \text{ of } 100 = 71 \text{ correct answers minimum}$

Pacing Math

- $180 \text{ minutes} \div 100 \text{ questions} = 1.8 \text{ minutes/question average pace budget}$
- Build in a buffer: aim for ~1.5 min/question to bank review time at the end

Must-Remember Checklist

- Confirm your exam fee (\$265) and registration are finalized before scheduling
- Know the pass line cold: 71%, not a round 70%
- Track time in blocks of 10 questions (~18 minutes per block at average pace) to self-check pacing mid-exam
- Flag and skip questions you're unsure of rather than stalling — with only 1.8 min/question on average, stalling on one question erodes your buffer for the rest
